Possibilities

ROCK RAIDERS

SPARKS

As the team's engineer, Sparks likes to build new mining equipment. He is always taking things apart, but sometimes he forgets to put them back together! Sparks keeps the drills drilling, the grinders grinding, and the loaders loading.

DOCS

Docs is the Rock Raiders doctor in residence. Doc is also a geologist. This expert rock doc can identify hundreds of rocks and minerals—even by smell. He can sniff out a brickonium crystal wherever it's buried.

BANDIT

Bandit is an expert at sneaking crystals away from the Rock Monster. He loves to cruise underground rivers and lakes on his 4920 Rapid Rider.

JET

Jet is the Rock Raiders pilot. She can fly anything with wings, big or small. She is a champion Hover Scout flier. The 4980 Tunnel Transport is her favorite vehicle. Jet can fly faster than a bat through the underground tunnels.

BRICKONIUM

A powerful new fuel source found deep underground. But beware! These glowing green crystals are guarded by the rowdy Rock Monster.

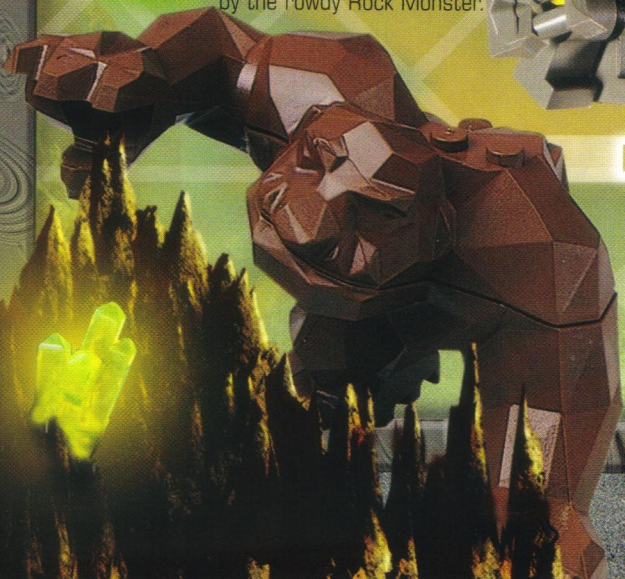

AXLE

Being a driver for the Rock Raiders could be a real grind for some people but not Axle. He is the group's best and fastest driller. With the 4970 Chrome Crusher, Axle can dig a tunnel faster than a gopher. If he wasn't a Rock Raider, Axle would make a great dentist.

ROCK MONSTER

The Rock Monster is king of the underground. He usually stays in his cave and leaves the Rock Raiders alone. But when someone takes one of his brickonium crystals, Rocky blows his top faster than a volcano. Then the underground really starts shaking and quaking.

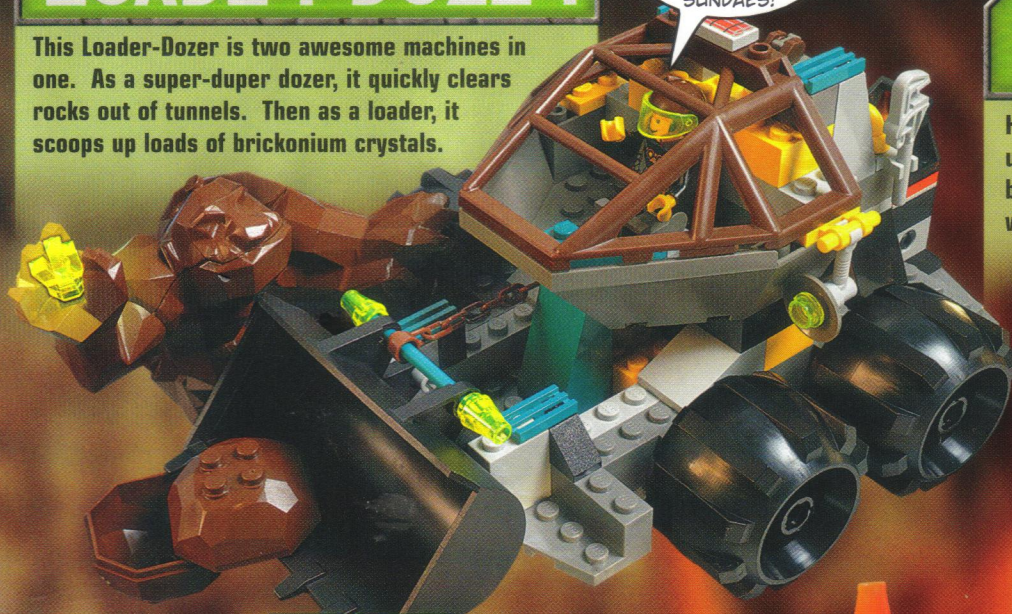

Y ROCK!

Go deep underground with the daring Rock Raiders. Your mission is to dig up rare brickonium crystals. These cool crystals are a powerful new source of energy. The Rock Raiders use high-tech equipment to explore the underground. They have brickonium blasters, chrome drills, and super scoopers. It's a whole new world down there-dark, deep and dangerous. And watch out for the Rock Monster!

4950 LOADER-DOZER

This Loader-Dozer is two awesome machines in one. As a super-duper dozer, it quickly clears rocks out of tunnels. Then as a loader, it scoops up loads of brickonium crystals.

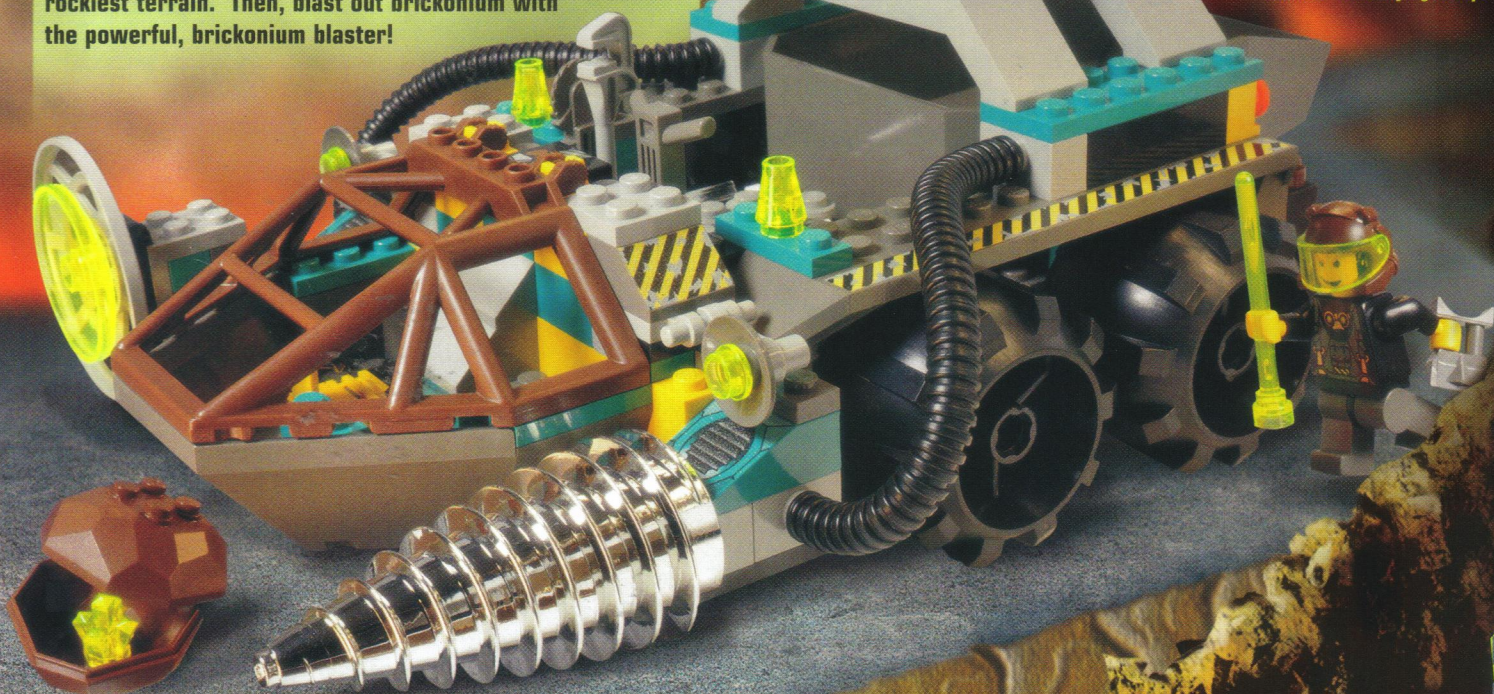

THE SCOOP IS ALSO GREAT FOR MAKING GIANT ROCKY ROAD SUNDAES!

Push the lever in back to raise the scoop.

4970 CHROME CRUSHER

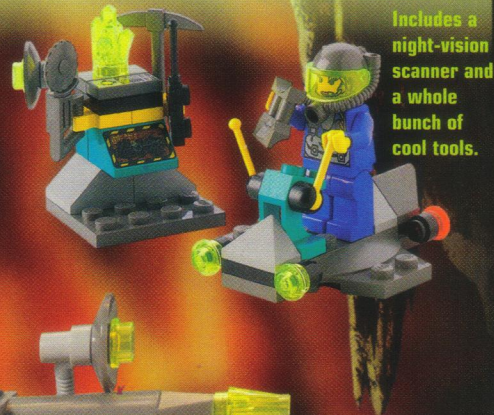

Crush big boulders with the awesome chrome drill. The drill fits on either side of the Crusher for digging in the roughest, rockiest terrain. Then, blast out brickonium with the powerful, brickonium blaster!

Press the button to activate the powerful, rotating brickonium blaster. It really lights up!

4910 HOVER SCOUT

Hang on to your hard hat. The Rock Raiders use this hovering hoverboard to scout for brickonium. They also race Hover Scouts when they get bored with drilling.

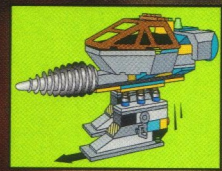

Includes a night-vision scanner and a whole bunch of cool tools.

4940 GRANITE GRINDER

The Granite Grinder cuts through the hardest rocks. Its polished chrome drill spins like a top, turning big boulders into puny pebbles. And the feet on this roving robot move back and forth to get you through the rockiest terrain.

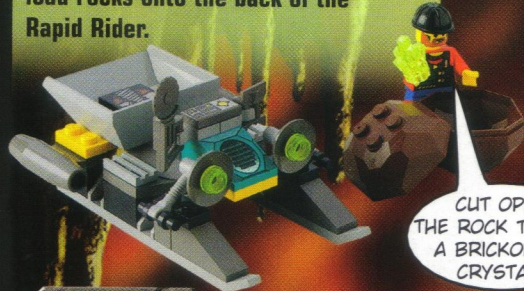

The grinder's feet do all the walking.

4920 RAPID RIDER

Ride the underground rapids, rivers, and lakes with this wild water scooter. Look for brickonium crystals and load rocks onto the back of the Rapid Rider.

CUT OPEN THE ROCK TO FIND A BRICKONIUM CRYSTAL.

4980 TUNNEL TRANSPORT

Traveling through tunnels is a real snap with the Tunnel Transport. This heavy-duty cargo carrier lifts loads of rocks with its powerful magnet. The Transport can also carry a mini dump truck. And for exploring tunnels or hoverboarding fun, a Rock Scooter hangs on back. With its four fast propellers, the Tunnel Transport can fly to safety from the Rock Monster.

Use the powerful magnet to pick up cargo or mini truck.

Rock Scooter snaps on back.

Propellers whirl round and round.

HOP IN! IT'S TIME TO GET THESE ROCKS ROLLING.

LEGO ROCK RAIDERS

High Adventure Deep Underground

LEGO Rock Raiders is rocking and rolling onto PC CD-ROM in Oct '99 and the PlayStation game console in Sept '99. Based on the new LEGO System Play Theme, LEGO Rock Raiders places you in control of the brave Rock Raiders team. With their ship stranded in orbit above an uncharted planet, your mission is to help the team mine precious LEGO ore and energy crystals buried deep beneath the planet's surface.

You're in complete control — the Rock Raiders team is depending on you to help them avoid rock slides, super heated lava, snakes, scorpions and looming Rock Monsters!

ROCK RAIDERS HQ

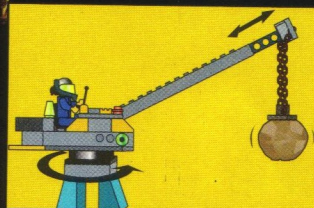

ROCK

HQ IS TONS
OF FUN

CLUB
MEMBER
REVIEW

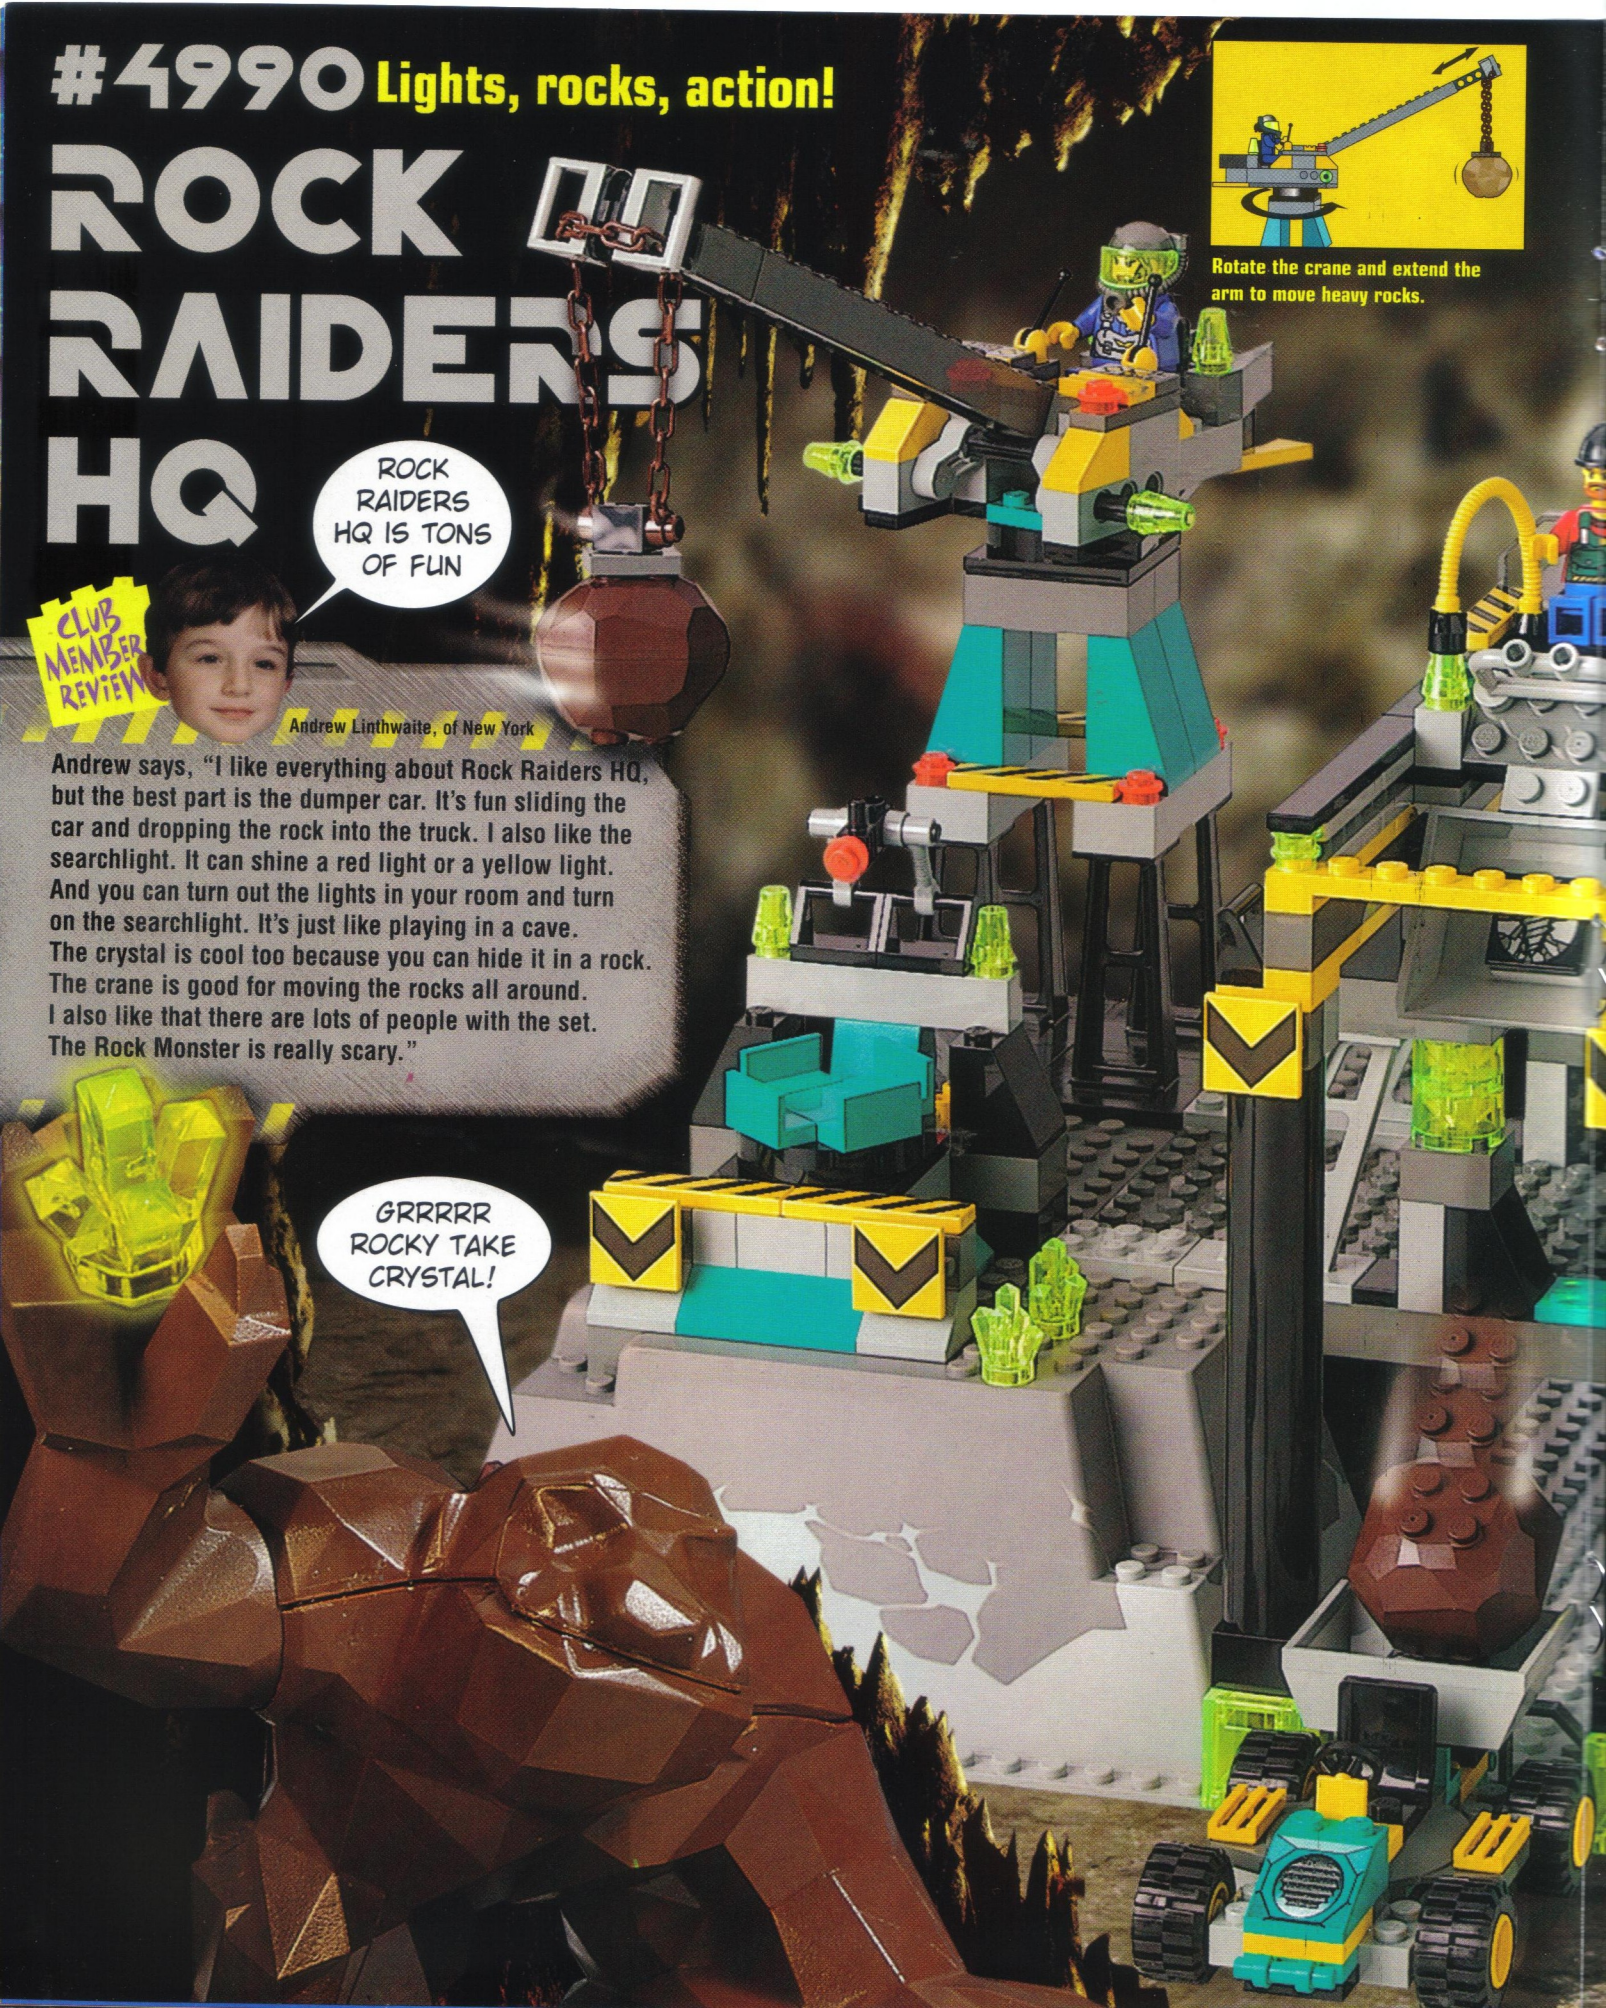

Andrew Linthwaite, of New York

Andrew says, "I like everything about Rock Raiders HQ, but the best part is the dumper car. It's fun sliding the car and dropping the rock into the truck. I also like the searchlight. It can shine a red light or a yellow light. And you can turn out the lights in your room and turn on the searchlight. It's just like playing in a cave. The crystal is cool too because you can hide it in a rock. The crane is good for moving the rocks all around. I also like that there are lots of people with the set. The Rock Monster is really scary."

GRRRRR

LOOK, I CAN LIFT THIS TWO-TON BOULDER WITH ONE HAND!

CATCH, AXLE!

THERE'S NO SIGN OF THE ROCK MONSTER.

GOOD THING THIS TRUCK HAS GOOD SHOCKS.

I LOVE THE SMELL OF FRESH BRICKONIUM!

BLENDING IN WITH THE ROCKY WALLS, THE ROCK MONSTER HIDES IN HQ AND THEN...

GRRRR!!

IT'S THE ROCK MONSTER! RUN FOR THE ROCKS!

THE MANIAC SWINGS DOWN ON THE CRANE'S CHAIN, PULLING THE CRANE ARM TOWARD THE GROUND.

I JUST GOT A SWINGING IDEA ON HOW TO STOP THAT ROCKHEAD.

THE MANIAC BUILDS LIKE CRAZY. HE ADDS A 4990 CRANE TO A 4980 TUNNEL TRANSPORT.

I GOTTA BUILD LIKE CRAZY BEFORE THE ROCK MONSTER COLLAPSES THIS CAVE!

THE MANIAC FLIES THE TUNNEL TRANSPORT DIRECTLY AT THE ANGRY ROCK MONSTER.

Don't take any rock for granite- IT MAY BE A GEM!

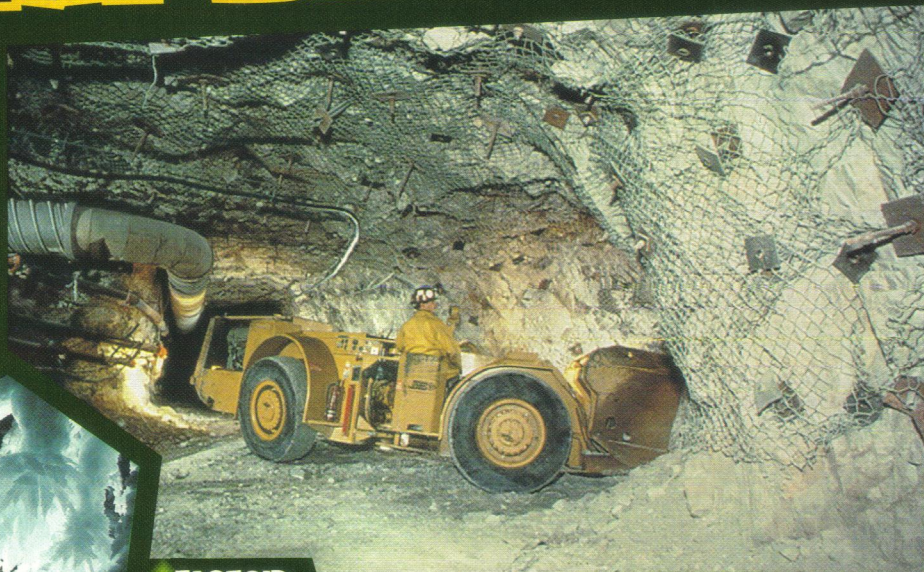

Buried treasure is hidden all over-and under-the United States. Miners dig for gold, silver, and even diamonds. You use tons of valuable crystals and minerals every day. And not just those found in your breakfast cereal!

Without copper, gold, and quartz, you would never get to school on time. These minerals run your digital alarm clock. Up to 42 different minerals, from aluminum to wollastonite, are found in one telephone. Both a TV and a computer use more than 30 minerals. The walls, pipes, lights, and basement of your house are all filled with minerals.

You can find some crystals in caves and many minerals in mines. Underground diamond mines can go thousands of feet under the earth's surface. That's why the Rock Raiders have #4940 Granite Grinders and #4970 Chrome Crushers. It can take 20 tons of rock to produce a handful of diamonds.

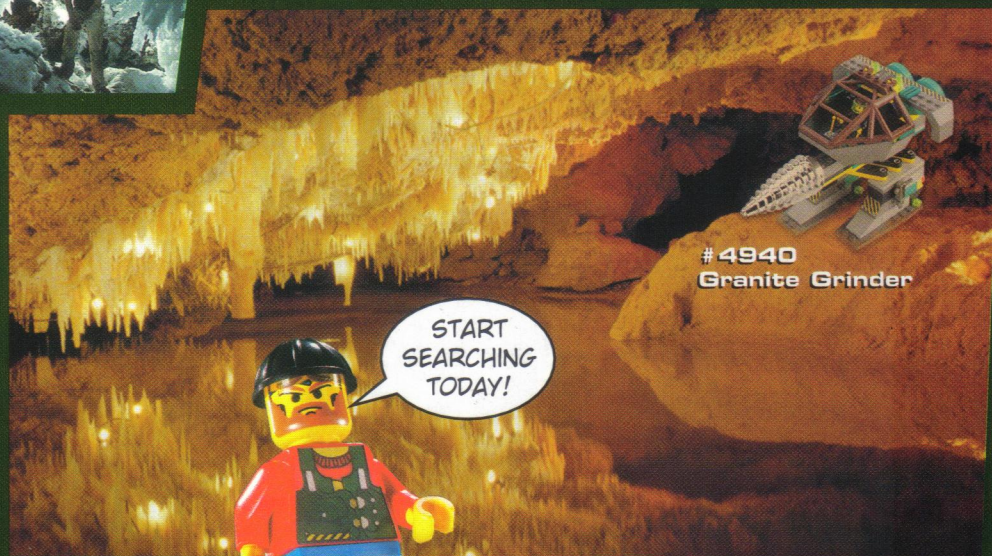

You don't have to dig a giant hole or tunnel to find cool crystals. You can look for quartz in Arkansas, tourmaline or aquamarine in Maine, or turquoise in Nevada. Many mines let you dig through their piles of broken rock for crystals. To find these hidden treasures, you'll need a three-prong garden rake to scratch through the rock pile. Look in the pile for any sparkle that might be the tip of a nice crystal.

Like green brickonium, some crystals glow or flash with cool colors. Look in your driveway or a landscaped area for two milky quartz pebbles. Knock them together and you should see an orange-yellow light inside the crystal.

FACTOID:

The Bingham Canyon copper mine in Utah is the biggest manmade hole on Earth. It is more than a half-mile deep and 2.5 miles across. An astronaut looking down from the space shuttle can see this hole with just his eyes!
