

# Congratulations - you've won!

Here's your reward: a diving diorama that you can color in, put together and use with your LEGO Minifigures!

1.

First, print out the parts of the diorama.

2.

Next, color it in however you like!

3.

Ask for an adult's help or permission to cut out the base, background and scenery objects around their black outlines.

Don't cut the dotted lines!

4.

Fold and glue the parts of the diorama as shown. Have an adult supervise or handle the glue!

5.

Use a string to attach your Minifigures to the slider as shown and have fun under the sea!
