

The Legend Of Lewa

On the island of Mata Nui, the evil Makuta rules and times are dark. The residents of the island have put their faith in a legend that says six heroes will come to restore peace. One day six canisters appeared on the shores containing six mighty warriors. The legendary Toa have arrived. To defeat Makuta, the Toa must find the Great Masks of Power.

Near the village of Le-Koro the legend of Lewa arrived...

Lewa
The Toa of Air

'Is this fire in the sky what I have been waiting for...'

'...or is this just another danger sent from Makuta?'

With a burst of light, the many pieces of the Toa slowly combined to form Lewa...

*'Feels good to be whole again.
Strange...this shore looks peaceful,
but I do sense evil on this island.'*

What have we here?
Don't be afraid, friend.
Tell me your name.

I am Kongu - a native
of the island. I am here
to h-help you Lewa!

I know that I have been
summoned here to
challenge a great evil...

...but how much use am I if I can't walk properly?

Don't worry Lewa - you weren't meant for walking! Wait till we get to the forest! Yes! Then you will see - things will become clearer!

I hope so. Tell me, what are these Masks of Power I have had in my dreams?

They are hidden all over Mata Nui - the evil Makuta has nightmare creatures guarding them. The Kanohi Masks will help you and the others defeat Makuta!

Slow down Kongu. What do you mean, others?

All in good time Lewa - follow me!

A short time later, the Toa and Kongu stop by a special place...

A mask!

The Toa Lewa put on the Kanohi..

..and it became part of him. At once, he knew more of his purpose in the world.

I feel strong, Kongu. I know more about my quest but have many more questions to ask.

You must search for the Turaga Matau in the highest tree in the forest! Be careful - great perils await you in your quest!

Good luck! Remember to reach for the forest!

Thank you Kongu, farewell!

Lewa climbed up into the trees and realised what his powerful arms were for!

Kongu was right. This is where I belong!

A legend had arrived. The Great Toa of Air, Lewa swung through the trees in search of Kanohi – the Masks of Powers.

Kongu did say 'others'... maybe there are more Toa like me -

(...to be continued next month!)
