2.8

Once, they were six Matoran from the city of Metru Nui, no different from any others. Now they have been gifted with the powers of Toa Metru and must save their home from darkness and doom. They will have to master their masks and their tools, and learn how to be heroes... or Metru Nui will surely fall.

## TOA ONEWA (TOA OF PO-METRU)

2.9

Toa of stone and guardian of Po-Metru. Toa Onewa is firm and strong willed, and he has little time for worries about the past or predictions of the future. His experience at scaling the buildings of Po-Metru makes him one of the most agile Toa. Like Toa Matau, Toa Onewa tends to act first and question later, but the two are not close friends (mainly because Toa Onewa has little sense of humour). Toa Onewa's strongest trait is his absolute refusal to consider the possibility of defeat – he will always find a way to win.

## TOA WHENUA (TOA OF ONU-METRU)

2.11

Toa of earth and guardian of Onu-Metru. Toa Whenua has a love for the history of Metru Nui and wishes to learn all he can about it. He is not as bold or confident as the other Toa, but his caution often saves others from harm. He is known for his fairness and good judgement, but is not comfortable with Toa Nuju or Toa Vakama because of their desire to look into the future.

## TOA NUJU (TOA OF KO-METRU)

2.13

Toa of ice and guardian of Ko-Metru. To others, Toa Nuju might seem aloof and unfriendly – his task of guarding the knowledge and memory crystals of Metru Nui is a lonely one and he has never been skilled at showing his feelings. But Toa Nuju believes strongly that success comes from working together and he is willing to respect Toa Vakama's leadership. Toa Nuju is a seer with great experience at interpreting omens of the future – and he has little patience with people like Toa Matau, who only want to think about today.

## TOA NOKAMA (TOA OF GA-METRU)

2.15

Toa of water and guardian of Ga-Metru. Toa Nokama is respected by all for her ability to use logic to resolve disputes. She could be a strong leader herself, but prefers to support Toa Vakama, for she believes in his courage and the power of his visions. Toa Nokama can often be found in the sea of protodermis, using her twin tools to swim through it at amazing speed.

# TOA YAKAMA (TOA OF TA-METRU)

2.17

Toa and fire and guardian of Ta-Metru. Toa Vakama was once one of the top mask-maskers in the foundries of Ta-Metru, and now he protects the Matoran who labour there. He is a natural leader, wise beyond his years, and believes he knows what it takes to be a hero. Toa Vakama has strange visions of the future, something he tries to hide from his friends. It is only later that he will discover that those visions are key to his fulfilling his duty to the city and its people. His tool is a great disk launcher.

## TOA MATAU (TOA OF LE-METRU)

2.19

Toa of air and guardian of Le-Metru. Toa Matau has a "highflying" attitude toward life. He is full of fun, impulsive, headstrong, and believes that he is as smart as Toa Vakama and should be leader of the Toa. His sense of humour keeps the Toa smiling even in the face of danger, but his recklessness often leads to trouble. Still, his instincts are second to none, and even those who don't get along with him admit that his hunches are often good. He will risk anything to protect the Matoran of Le-Metru.
